

**Rosemont Copper Mine
September 2015**

Overview

Rosemont Mine is a new open-pit copper and molybdenum mine proposed for construction on approximately 3,655 acres of National Forest System land and 1,200 acres of private land southeast of Tucson. The mineral deposit could reportedly produce up to 10% of the U.S. annual production of copper and create approximately 150 jobs for 25 years. The project would also result in the significant
